

GRANJA REMELLURI 2009

Granja Remelluri, the "Gran Vino" our property, marks a turning point with this 2009 vintage.

The second generation of our family takes care of the vineyard and starts a important job in the winery to consolidate Remelluri as one of the most important wine estates in the country.

Fermented and matured, halfway between the two generations, Granja Remelluri returns to its initial idea of becoming the reference wine of our property.

Made with Remelluri's main old plots, this 2009 also returns to give protagonism to Garnachos, the most Atlantic Garnachos in Rioja, which are harvested in November at the gates of winter. A percentage about 20% of this variety gives again a special character to the Granja Remelluri. The Villaescusa's Tempranillos and Gracianos and the Remelluri's central anfiteatro also emphasize the character of spectacular Toloño Mountain which this wine had at its inception.

From this 2009 vintage Remelluri will produce Granja Remelluri every year.

The 2009 vintage was marked by a winter of snow and rain, a wet and soft spring and a hot dry summer. The characteristics of our Remelluri vineyard allowed to accomplish an optimal harvest. Great aging wine.

April 2015
